CAREER OBJECTIVE

Flutter Developer with 2+ years of experience building scalable, high-performance mobile apps. Skilled in Flutter, Dart, and cross-platform development, with a focus on clean code, seamless user experiences, and effective teamwork. Eager to contribute to innovative projects that deliver real-world impact.

PROFESSIONAL EXPERIENCE

The SOFTKING Limited 07/2023 - Present
Designation: **Software Engineer (Flutter)**

A software company specializing in mobile and web applications.

- Developed and maintained scalable, high-performance mobile applications using Flutter.
- Designed, tested, deployed, and optimized new features, ensuring clean and efficient code.
- Collaborated with UI/UX designers and QA engineers to deliver seamless user experiences.
- Improved application stability and performance through code optimization and effective debugging.

Clipping World 01/2023 - 06/2023
Designation: **Flutter Developer**

A company providing digital and marketing solutions.

- Built and maintained mobile applications, ensuring smooth performance and feature scalability.
- Led the implementation of new modules and contributed to ongoing software maintenance.
- Delivered user-centric solutions aligned with business requirements and client expectations.

WStacks 10/2022 - 12/2022
Designation: **Flutter Developer-Intern**

A technology solutions provider

- Assisted in developing and testing Flutter-based applications under senior guidance.
- Gained hands-on experience with professional design patterns and software architecture.
- Contributed to building user-friendly features in collaboration with the development team.

EDUCATION

B.S.C In Computer Science and Engineering
Daffodil International University
CGPA: 3.85/4
01/2020 - 12/2023

Diploma in Computer Technology
Barisal Polytechnic Institute
CGPA: 3.65/4
09/2015 - 09/2019

RESEARCH PUBLICATION

Title : Real-Time Vehicle fitness detection using YOLOv5 **Issued On:** 23/11/2023
URL : https://ieeexplore.ieee.org/document/10307679

- This paper addresses road accidents caused by unfit vehicles. YOLOv5 model achieved 97.3% mAP, effectively detecting vehicle fitness to enhance road safety through computer vision.

ACHIEVEMENTS

- **Three-time Employee of the Month, The Soft King Limited**, recognized for outstanding performance, dedication, and consistent contribution to team success.
- Delivered a session on Mobile App Development at the **NASA Space Apps Challenge**, recognized for sharing insights that fostered innovation and collaboration.
- Received the Volunteering Award at the NGPC Programming Contest.

SKILLS & KNOWLEDGE
